

To whom it may concern,

ARTI07 is a creative event dedicated to make art accessible for everyone - from art fans and art connoisseurs to professional and amateur art collectors

ARTI07 offers a different perspective and experience. We like to heighten your senses with state of the art pieces that are a delight for the eye and mind. With ARTI07 we strive to make more people truly enjoy art. We offer potential art enthusiasts a way to experience different forms and styles of art whilst offering the artist a new interesting way to promote and sell his/her works.

ARTI07 believes in the business model of Sarq Art. They differentiate by acquainting the general public with art from different cultures. Sarq Art offers art that usually cannot be found in any gallery in the Netherlands. Sarq Art's new and interesting approach creates a new way for different cultures to meet through works of art. All coming from the love for art and the respect for the artist
